

Gym Floor Cover Tiles

OVERVIEW

Large-format textile cover tiles that protect gym and sports floors during events, assemblies, dinners and exams. The flat, low-profile surface lays down fast, stays put without adhesive, and lifts back up without leaving a mark.

Built for schools, colleges, churches and multipurpose venues that convert their gym floor again and again.

TILE SIZE	COVERAGE	THICKNESS	INSTALL	FIRE RATING
1m x 2m	21.5 sq ft / tile	5.2 mm	Loose lay	Class 1

FAST INSTALLATION

- No skilled labor needed
- A crew of four covers about 10,000 sq ft in an hour
- No glue, tape or adhesive, so the sports floor is never damaged
- Rolling storage cart for quick setup and teardown

PROTECTS AGAINST

- Impact and abrasion
- Furniture, staging and equipment loads
- Street-shoe and heel traffic
- Spilled food and drinks

CARE

- Vacuum for routine cleaning
- Can be jet-washed when needed
- Replace damaged tiles one at a time
- Matching replacement tiles stay available

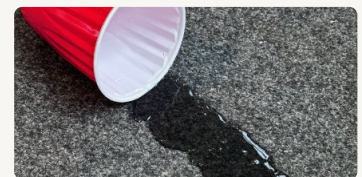

Tiles roll out straight from the cart

Loose lay, no tools

Handles heels and foot traffic

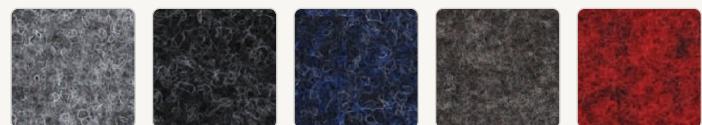

Spills stay off the floor
